Title: LCD PANEL FOR A SERVER SYSTEM

IN THE SPECIFICATION

Please replace the paragraph beginning at page 2, line 5 with the following re-written paragraph:

Summary of the Invention

One form of the present invention provides a server system including a plurality of printed circuit assemblies. The server system includes a chassis for housing the plurality of printed circuit assemblies. A server management card coupled to the plurality of printed circuit assemblies monitors and manages operation of the server system. The server management card receives and stores status information from the plurality of printed circuit assemblies. A first LCD panel is mounted on ~~the server system~~ a first side of the chassis and is coupled to the server management card. ~~The first LCD panel provides a user interface for configuring the server management card and accessing the stored status information from the server management card.~~ A second LCD panel is mounted on a second side of the chassis and is coupled to the server management card.
